Holborn Wheat Pool Local.

The special Wheat Pool meeting held Thurs. Aug. 2 at the U. F. A. hall proved a great success, in spite of the rain storm and bad roads, a record crowd of members, non-members and visitors gathered. The meeting got away to a good start with Mr Washburn in the chair.

Mr N P Davison, field service man of the Pool, was then called on, and gave a very able and interesting talk. Among some of the things he pointed out was the necessity of farmers of the district not to be lulled to sleep as regards the needs of organisation because we were passing thru a period of good times.

The biggest enemy the farmer had, said the speaker, was his non-Pool brother, because if the price is ever seriously lowered it can only be done by such people dumping non Pool wheat and offering it to the market at a price lower than that offered by the Pool. This happened quite often during the year. And in spite of the now threatening

lower price on open market, which is trying to make the Pool believe, that the farmers will have to take a much lower price this fall, the Pool is confident in offering the same prices as initial payment this fall as last, that is \$1.00 for No. 1, f.o.b. Vancouver.

Mr Davison stressed upon the necessity of members supporting and using their own handling houses at your local points, and warned them that it was true that private company elevators have over-graded certain pool members grain in order to take the business away from the Pool elevators; so do not be misled by unreasonable offerings.

With Pool elevators, profits are non-existent, they are operated on a cost basis, and he said, all pool elevator operators are instructed to give pure unadulterated service.

The meeting was then voted to a close as one of the most successful ones held. It was regretted by many, that one of the speakers of the Dairy Pool was unable to attend owing to the bad roads, however this speaker will appear at an early date.

Wednesday Half-Holiday.

During the months of July and August all places of business in Stony Plain will close Wednesday afternoon at one o'clock.

LOCAL NEWS.

Ex-Mayor Donaldson, who has been visiting relatives at Winlock, Wash., is expected home today.

Mr S B Lucas, former agent in this district for S S. Board, who is now farming in Wetaskiwin district, paid old friends here a visit, on Friday.

How Chas Stewart, member in the Federal house for this constituency, came up from Ottawa to Edmonton over the week end. A number of his local supporters paid him a visit in the City.

Mr John Coyes returned on Monday from a two-weeks' visit in the Misericordia hospital.

Mr Philip Trapp, the well-known baker, is installing a new, up-to-date oven at his bakery on Main St. This improvement will enable Mr Trapp to turn out large batches every day of that good white and eye bread for which he has become so justly noted.

Tiga Councillors are billed to meet in Stony Plain tomorrow (Friday) Aug. 10.

Mr and Mrs Lloyd Kimmerly are the proud parents of a son, born Monday, August 6th.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Meeklenburg, eye specialist, 10159 101st St., Edmonton.

'Oh What'll the Harvest Be?'

Barring hail and wind storms, or other unforeseen happenings, the Stony Plain and surrounding districts will harvest one of the biggest crops in their history. A careful survey shows that wheat will give an average of from 25 to 30 bushels; oats from 60 bushels up; and barley 35 to 40 bushels. A large area of the wheat is already turning, and some experienced farmers predict that some wheat will be ready the latter part of next week for cutting.

Farmers' Week at Experimental Station, Lacombe.

A four-day course (August 20 to 23) of lectures and practical demonstrations on live stock, field crops, poultry, horticulture, beekeeping will be given at the Dominion Experimental Station, Lacombe. Experts prominent in each line of work from the University at Edmonton, Provincial Dept. of Agriculture, etc., will assist the staff of the Experimental Station. Addresses will be given in the evening by prominent speakers.

NOXIOUS WEEDS !

Your co-operation with Provincial and Municipal authorities is solicited in the control and eradication of weeds. Keep your fields and roadsides free from these unsightly and costly pests.

Weeds reduce the yield and lower the grade of your grain, rob the soil of its fertility and cost money in dockage and transportation. Approximately 6,000 cars were required to haul the screenings from one season's crop in Western Canada to terminal markets. Will you not help to reduce this enormous loss?

Give your local weed inspector and the Provincial Field Supervisor in your district every possible support in dealing with the weed problem.

FIELD CROPS BRANCH,
Alberta Department of Agriculture.

Dealing With Confidence !

Farmers, both shareholders and non-shareholders, deal with confidence with this farmers' company.

They know the experience, resources, organization and equipment enable this Farmers' Company to give to farmers the best of service and equipment.

A Great Achievement

Keen interest has been aroused in all parts of Canada by the announcement made at Victoria, recently, by Sir Henry Thornton, President of the Canadian National Railways, that, as a result of some years of study and work, a plan will be submitted to the Government and Parliament in the very near future providing for the financial reconstruction of the national system of railways, a plan which, in the words of the C.N.R. president, "will, in perpetuity, relieve the C.N.R. from being any further drag upon the treasury of Canada."

As a matter of fact, the financial reconstruction of the Canadian National Railways has been proceeding apace for some years past through the making of amicable arrangements with stockholders and bondholders of several of the railways now incorporated in the national system. These arrangements were a necessary preliminary step to a final consideration and development of a plan whereby the system could be relieved of the huge burden imposed upon it by reason of its heavy over-capitalization.

In considering the Canadian National Railways, it is always to be remembered that it was not constructed, like the Canadian Pacific, as one operating unit. On the contrary, it is the result of the amalgamation of several different systems, with lines often duplicating each other in the same territory, with duplicate sets of shops, round houses, stations, and other equipment. Thousands of miles of the system were built, not for purely commercial reasons, but as a feature of national policy for the opening up, colonization and nation-building of the Dominion. Of some portions were located for strategic national reasons rather than from the standpoint of the business to be secured or developed.

Under the circumstances, it was not surprising, but rather to be expected, that such mileage would be operated at a deficit. Year by year these deficits have been charged up against the lines which ultimately became part and parcel of the present Canadian National Railways. These individual systems were, in reality, bankrupt when the Government was compelled to take them over to prevent a catastrophe and financial disaster which would have shaken the Dominion and all but ruined its credit in the money markets of the world. Had these railways remained in private ownership and passed into receiverships, there would have been a drastic writing down of capitalization and holders of the stocks and bonds would have had to take their losses, while the Dominion itself would have lost all the many millions loaned to them.

It has long been foreseen that, if the Canadian National Railways were ever to earn sufficient revenues to meet interest charges on its capitalization, the financial structure of the system would have to be reconstructed so as to more nearly bear some relation to the actual physical value of the system as a going concern. But, as already stated, certain arrangements with the stock and bond holders of the old railways had to be negotiated if Canada was to escape the stigma of having broken faith with these investors and the accusation of being guilty of a policy amounting almost to repudiation.

Nether Sir Henry Thornton, nor Hon. C. A. Dunning, Minister of Railways, has given any hint of the nature of the proposals to be laid before Parliament, but the people of Canada, as reflected by the editorial expressions of papers on all sides of politics, are decidedly friendly to the development of any reasonable plan which will give the management of the national railways a fair chance to make the system self-supporting and ultimately a profit-making enterprise.

When Sir Henry Thornton, at the request of the Mackenzie King Government, accepted the presidency and management of the Canadian National Railways, it was still in a state of disorganization. From an operating standpoint it had to be completely reorganized. At that time it was not only not earning one cent of interest on its outstanding stocks and bonds, but it was being operated at an actual loss year after year, which loss had to be put up in cold cash out of the Dominion treasury. Next to the war debt of Canada, it was the greatest burden imposed on the Canadian people. The outlook was blue indeed, and many people feared it would bankrupt the Dominion.

Therefore, before any permanent reconstruction of its financial system could be undertaken, it was not only necessary to effect the arrangements already referred to, but even more necessary that these annual losses in operation be stopped. It stands to the credit of Sir Henry Thornton that in this he was markedly successful. Operating deficits ceased some years ago.

Within the past two or three years these surpluses have been sufficiently large to meet all interest charges on securities held by the public, leaving a small balance to be applied on the enormous sum owing to the Government itself.

Addressing a meeting in a Saskatchewan town last month, Sir Henry Thornton stated that the surplus this year would be the largest in the history of the system, and that the outlook for the future of the road as a real and very valuable asset of the Dominion was never brighter, and this despite increased wages to employees and lower freight rates imposed by the Railway Commission.

The final and definite financial reconstruction of the whole system, and the resultant establishment of the Canadian National Railways as a self-supporting, publicly-owned transportation utility, will not only give the greatest satisfaction to the taxpayers of Canada, but it will prove a guarantee to the whole world of the financial stability and strength of the Dominion, and be hailed as another great Canadian achievement.

CUTICURA

Best For Both Mother And Child

Regular use of the Soap, assisted by the Ointment when required, not only cleanses and purifies the skin of children and adults, but tends to prevent clogging of the pores, the common cause of pimples and other unsightly conditions.

Sample Soap Free by Mail. Address: Canadian Depot, 1000-1010, 1015, 1020, 1025, 1030, 1035, 1040, 1045, 1050, 1055, 1060, 1065, 1070, 1075, 1080, 1085, 1090, 1095, 1100, 1105, 1110, 1115, 1120, 1125, 1130, 1135, 1140, 1145, We Need Forcefully Reminding Of The High Position Achieved By Canada In Recent Years

"We have been so dazzled by reports of the wealth and prosperity of the United States," comments the Daily Sketch, "that we need to be forcibly reminded of the position achieved by Uncle Sam's neighbor."

This was called forth by statements made by Hon. P. C. Larkin, Canadian High Commissioner in Great Britain, on the occasion of the Dominion's sixty-first birthday, to the effect that Canadians were the most prosperous and the highest taxed people in the world today, not excluding Americans.

The Daily Sketch uses the correct word, and it is applicable to many Canadians as well as to people of other countries. The prosperity of the United States has blinded us to a full realization of our own enviable position, although economists state that a very small percentage of United States industry does business at a profit. Tax reductions at Washington have given us a false impression and blinded us to the fact that we are less heavily taxed, considering State, municipal and other forms of taxation of which we know comparatively little.

The comparison is not to the discredit of the United States. Its spectacular progress has been dazzling. We have been at fault to the extent that we have permitted it to draw attention away from the advancement we have made, are still making, and are due to make in coming decades. It is gratifying, however, that now we have many friends at the court of public opinion ready to proclaim the greatness of the country. Newspapers and other periodicals at home and abroad are giving more space to the Dominion's achievements, and are finding co-operation from men high in finance, industry, mining, agriculture, transportation and general business. A notable recent example of this is a supplement issued by The Manchester Guardian devoted to "Commercial and Industrial Canada."

Mr. Larkin pointed out in an interview in The Daily Express, that, according to estimates, 60 per cent. of Canadians living in cities own their own homes. This is a unique position, indicating both prosperity and stability. The cities and towns have entered an era of big business, their net production in 1925 being estimated at \$2,000,000,000. They are contributing their share to \$2,500,000,000 of trade, with 110 countries, as compared with \$616,000,000 twenty years ago with 65 countries. The agricultural wealth of the Dominion, twenty years ago was \$670,000,000, and the gross agricultural revenue \$1,289,000,000. Last year the former was \$7,988,000,000 and the latter \$1,736,000,000. The United States cannot show so large a percentage of net revenue per acre of land cultivated in the country.

The Dominion's wheat crop exceeds \$500,000,000 in value yearly. The revenue from forest products is approximately half a billion dollars. The mineral output is half as much, double what it was fifteen years ago. Canada stands third among the nations of the world in gold production. It is also third in the per capita use of electrical energy. It is fifth as a manufacturing country with a population of less than 10,000,000.

Would it be too much to say that if other countries have been dazzled by the progress of the United States, that country has been dazzled by the prospects available here? In 1913 United States investments in Canada

aggregated \$417,000,000; in 1927 they totalled about \$3,000,000,000, more than half of total investment by foreign capital, including that from the United Kingdom.

This is a fact for Brititshers and Canadians to keep in mind.—Toronto Globe.

Heavy Marketing Of Veal Calves Sale Last Year Heaviest In Past Five Years

The increase in the dairy cattle population as in straight milk production is invariably followed by an increased marketing of light thin veal. Last year the sale of calves was the heaviest during the past five years and showed an increase since 1923 of approximately 115,000 head. In a report just issued by the Department of Agriculture, at Ottawa, on the "Origin and Quality Of Commercial Cattle Marketed in Canada Last Year," the quality of the calves as a whole was disappointing, there being a preponderance of "greasers" and a large percentage of very common veal stock. The report, which is distributed by the Publications Branch of the Department, shows by counties or electoral districts within provinces, where the calves came from, the market classes to which they belong, and their destination. It also deals with other classes of market stock, including cattle, sheep, and hogs marketed throughout the 136 divisions in 1927.

Attractive and Practical
An attractive apron that slips over the head with wide straps that will not slip off the shoulders is shown in design No. 418. You'll find it especially easy to make, as it cuts entirely in one-piece. Printed saten, English-print, chamois, plain gingham, and striped percale are smart suggestions. Pattern is furnished in sizes 36, 40 and 44 inches bust measure. The 36-inch size requires 1 1/2 yards of 32-inch material, with 7/8 yards of binding. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

Deputy Minister Of Fisheries

W. A. Found has recently been appointed as the new deputy minister of fisheries. Formerly he was director of fisheries until the government decided to establish a separate department. The new department will continue under the direction of Hon. P. J. A. Cardin, minister of marine and fisheries. The work of the marine branch has greatly increased since the advent of radio.

Mange In Swine

Mixture Of Lard Linseed Oil, Tar Oil and Sulphur an Effective Remedy

A skin disease, sarcoptic mange, has appeared from time to time in some parts of the country. It is indicated by unthriftiness, dryness of the skin, accompanied by continuous rubbing or scratching. In advanced cases rubbing is sometimes continued until the blood appears. The disease is confined almost entirely to the summer season. The Scott, Saskatchewan, Experimental Station had occasion to deal with this disease, and from their experience can recommend a mixture of raw linseed oil, tar oil, and sulphur, prepared by heating one gallon of raw oil by suspension in hot water and adding to this eight ounces of oil of tar and two pounds of sulphur, stirred in while the oil is hot. This preparation is applied warm by the use of a rag, to all parts of the body. The rag is merely moistened with the mixture to avoid blistering. Four treatments at ten-day intervals effect a cure. Between the third and fourth treatment the pens were thoroughly cleaned out and the walls and floors sprayed with whitewash containing a reliable disinfectant. Referring to these experiments in the 1927 report of the Scott Experimental Station, the superintendent states that it is not necessary to whitewash the walls higher than six feet from the floor.

To Be Continued

Little Emily had been to school for the first time
"Well, darling, and what did you learn?" asked her mother on Emily's return.
"Nuffin," sighed Emily, hopelessly. "I've got to go back tomorrow."

Development Of Hardy Fruits For The Western Prairies Is Meeting With Good Success

WESTERN SHEEPMEN IN STRONG POSITION

Permanent Feeling Of Confidence Everywhere In Evidence

"Never have I noticed such a permanent feeling of confidence as seems to exist among sheepmen all through the Western Provinces this year," states W. H. J. Tisdale, of the Canadian Co-operative Wool Growers, who has just returned from his sixth annual western tour, during which he motored all through the principal range areas of British Columbia and Southern Alberta, as well as visiting practically the whole of the sheep farming areas of all four provinces. "Not only are the sheepmen confident, but I found the same feeling in respect to agriculture generally among the leading banking and railway officials of the towns and cities. Good crops and good prices have had a wonderful effect on prairie and British Columbia conditions and live stock is coming back rapidly."

Mr. Tisdale reported a continual trend toward mixed farming. Sheep are now considered to work in well with grain farming, where the property has been fenced. From 100 to 150 ewes are being kept on many half sections where, owing to the abundance of waste feed, their feeding cost is very small. The sheep have been found very useful in keeping summer fallows clean and in helping to solve the weed problem.

"Undoubtedly the most spectacular sheep development has taken place in British Columbia. There, farmers have doubled their sheep population in the past four years, and the Grazing Commissioner, T. P. McKenzie, assured me that there was room for 2,000,000 sheep, or more than fifty per cent. of the present total for all Canada, in the interior of his province alone."

Unfortunately, according to this official of the Canadian Co-operative, the range lamb crop of the west this year, due to extreme weather conditions at breeding time last fall did not run over 55 per cent. but among the farm flocks of the west it was well up to average. The wool coming from this part of the country this year is as good as any western clip he has ever seen, being clean and bright. Of the total western clip, the Co-operative expects to handle about 300,000 pounds from British Columbia, 750,000 pounds from the flocks of Saskatchewan and Manitoba, and 1,250,000 pounds from Alberta this season.

Experience is the only teacher that can get anything into the head of the man who knows it all.

No man is ever so friendless that he can't find some one to jolly him along.

There are few districts in Canada where finer vegetables can be grown than in the Prairie Provinces provided the garden is well protected from the strong winds. The same thing applies to small fruits such as currants and raspberries where proper cultural methods are employed. The growing of tree fruits is, however, a much more recent development. While it is not expected that apples and plums will for many years be raised in commercial quantities on the prairies, there is enough evidence to demonstrate quite conclusively that in most of the settled sections it is quite possible for a farmer to raise sufficient fruit for home requirements.

The late A. P. Stevenson, of Morden, Manitoba, undoubtedly did more than any other private experimenter in demonstrating the possibility of growing tree fruits in Manitoba. He propagated and sold large numbers of young trees of varieties which he found hardy, mostly of Russian origin, and of recent years reports of Stevensen ripening standard apples have been received from widely scattered points in the three prairie provinces.

On the Dominion Government's nursery station at Indian Head, apples and plums originating from the Stevensen nursery have been planted nearly twenty years ago and additions made from time to time. Reasonable crops of fruit have been secured quite regularly. In some seasons over 1,500 pounds of plums, and 1,700 pounds of standard apples have been picked. The apples which have given most general satisfaction are the Hibernian, Blushed Calville and Patten's Greening; while among the best plums are Aitkin, Stevensen's Mammoth, Cheney, and Winnipeg. One of the chief difficulties to contend with is rabbit injury, and it is doubtful whether success can be secured unless the trees are protected by a rabbit-proof fence. A good wind-break of trees is absolutely essential.

Conditions for fruit growing are not equally favorable all over the three provinces. Varieties which are hardy in southern Manitoba and southeastern Saskatchewan are not found to be hardy in areas farther north and west. It is safe to predict, however, that by cross-breeding, varieties will eventually be produced suitable to all districts. It is only of comparatively recent years that much attention has been paid to the breeding of hardy fruits for the Canadian prairies, but a great deal of work along these lines is now being carried on under the supervision of Mr. W. T. Macoun, Dominion Horticulturist, Ottawa, at the Dominion Experimental Farms, at Morden, Man, and Rosthern, Sask., also at the University of Saskatchewan at Saskatoon, and results so far are very encouraging.

Turkey Straps Old Titles

New Turkey has decided to scrap all the old official titles left over from the old regime beginning with the highest military title "Pasha" which henceforth will be "General." President Mustafa Kemal's name will thus be Westernized to General Gazi Mustafa Kemal instead of the old form Mustafa Kemal Pasha.

No Glamour In War

The romantic and the poet may still strive desperately to keep up the old glamour which surrounded the business of fighting. But it is not there, and they know it. There is no "shining armor" left in modern war; only mud and blood and a dulling of office work.

LE FOULON

The fête of St. Jean Baptiste is a day of particular celebration among the French-Canadians and although weather intervened in the program, one of the most impressive spectacles was eventually presented in Montreal in which many thousands participated. "Jean le Percuteur" was the title of the oratorio given in the Montreal Stadium, which was preceded by a procession of floats representing various well known French-Canadian folk songs. The float pictured above is entitled "Le Foulon," and was the contribution of the Canadian Pacific Railway towards this popular event. It illustrates the old chanson of that name, sung by the inhabitants in the manufacture of homespun material during the process of shrinking. The singers are the Bytown Troubadours, who made such a hit at the Quebec Folk Song Festival.

"Don't fall into the pit! The warts there cost 6 marks!"—Lustige Kaiser Zeitung, Cologne.

"What are you doing with that ladder?"
"I intend to steal a kiss!" — Pages Gales, Yverdon.

WORLD HAPPENINGS BRIEFLY TOLD

Announcement is made by the minister of National Revenue, Hon. W. D. Euler, of the coming into effect of the trade treaty between Canada and the British Republic of Latvia.

The British Government will establish agricultural schools to train idle coal miners to be farmers, preparatory to their migration to the Dominion to settle upon free land.

Lord Salsburgh, Lord Chancellor of Great Britain, heads the nineteen delegates from Westminster on the trans-Canada tour of the British Empire Parliamentary Association.

Plans under consideration of the New York Central Railroad call for the co-operation of the Canadian Pacific Railway in establishing air mail routes between Minneapolis, St. Paul and Winnipeg via Duluth.

Miss Amelia Earhart, the first woman to fly the Atlantic ocean, has sent a cheque for \$1,500 to Commander Richard E. Byrd as her contribution toward the Byrd Antarctic expedition.

Believing that Alfred Lowenstein might have been poisoned, the family of the dead man has requested permission to file suit charging an unnamed person with poisoning Lowenstein, in the event traces of poison are found in the body.

Sir Austen Chamberlain, foreign secretary, announced in the House of Commons that Great Britain had reached a compromise with France over the naval disarmament question which would be submitted to the other naval powers and eventually to a disarmament conference.

The cabinet council has confirmed the appointment of the commission to enquire into the return of the natural resources of Manitoba to the province. The personnel will be Mr. Justice Tupper, president, and judges of the Saskatchewan court of appeal, Hon. T. A. Cramer, and C. M. Bowman of Waterloo, Ont.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath, it seems beyond the power of human aid to relieve until one tries the remedy of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

Seeking Information

A witness was being examined, "My Lord," he said, "you can believe my statement, for what I have said is absolutely correct. I've been wedded to truth since my childhood."

"Quite possible," replied the Judge, "but what the court wants to know is how long have you been a widower."

Stings and Bites.

The pain of insect bites disappears quickly with the application of Minard's. Try a bottle.

Modernizing E.P. Ranch

Electric Plants Furnish Light and Pump Water For Ranch Buildings

The ranch of H.R.H. the Prince of Wales, has been electrified. Two large individual electric plants, of the type used by thousands of Canadian farmers, were installed recently on the E.P. ranch, completely electrifying the many buildings which form a small city on the farmstead. Two electric residence water systems were also installed to supply drinking water, so that kerosene lamps and water from a pump are as rare at the ranch house as they are in the Prince's home in London.

Stabilizing Easter

Hoped That International Agreement Will Be Reached For Fixed Dates

The measure stabilizing Easter in Great Britain and Northern Ireland, given third reading in the House of Lords recently, will not be effective until an international agreement has been reached. It is stated.

The bill provides for observance of Easter on the Sunday after the second Saturday in April, instead of determining the date by the phases of the moon.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels, and give to the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates nor narcotics or other harmful drugs, always do good. They are sold by medicine dealers or by mail at 25 cents a bottle from The Dr. Williams' Medicine Co., Brockville, Ont.

A Chit Frock For the Junior Miss

The little one-piece frock shown here is a smart and practical style for all day time wear. The skirt has an inverted pleat in the centre front, and the sleeves are long and gathered to narrow wrist-bands, or short and finished with shaped cuffs. A note of contrast may be introduced in the shaped collar and set-under vestee, and the belt fastens with a buckle and front. No. 1808 is in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2½ yards 32-inch, or 2½ yards 30-inch material, and 1-3 yard 39-inch contrasting (cut crosswise). Price 25 cents the pattern.

Farmers' Marketing Tour

Canadian National Railways Tour To Great Britain and Denmark, 1928

(Continued.)

We bade London an early farewell, being on the way to Cambridge by 8.30 a.m., passing through Waltham Cross with its Abbey of the Holy Cross, re-founded by King Henry in 1060, Cheshunt, which was invaded by the Danes in 893, and Epping Forest, the former royal game preserve, which is now the Londoner's favorite playground.

It would be impossible to describe the charm of the colleges of Cambridge University, its peaceful setting in the wonderful woods through which runs the River Cam, or the beauty of the time-worn mansions. Nor could one hope to convey the sense of atmosphere that time has given to this ancient seat of learning, something of which is caught even in our hurried trip through the grounds. Fortunately, we had the opportunity of visiting King's College Chapel. The towering vaulted roof of this poem in stone, the former royal game preserve, which is now the Londoner's favorite playground.

Proceeding to Calus College we had lunch in the dining hall, the Vice-Chancellor, and also the head of the table. Again we felt the sense of privilege, of "atmosphere," for the surroundings were portraits of some of the famous men of Calus, dating from the Middle Ages, visible evidence of her continuity with an illustrious past.

A delightful luncheon was followed by an address of welcome from the Vice-Chancellor, and a short talk from Sir Ernest Rutherford, whom some of us remembered as a one-time professor at McGill University.

Referring to one of the lecture halls of the Animal Nutrition Institute, I listened to Professor W. Wood, General Director and Director of the Chemical Section, who described the work of the Institute and some of the experiments which had been conducted with a view to finding standard maintenance for hogs, cattle, horses and poultry.

Professor Sir R. H. Biffen, Director of the Plant Section, then discussed the experiments which had led to the production of Yeoman Wheat, a wheat of high yield and possessing some of the qualities of the hard wheats of Canada.

Visiting the Forestry Section, we saw specimens of our own Douglas Fir, Bird's-eye Maple, Canadian Poplar, and a number of other trees of English oak panelling in the world. The calorimeter with a hog inside it, the chemistry room and the low Temperature Station were examined. This last was full of interest to us. Here meat hanging experiments and tests for discovering the best methods of carrying apples and rabbits in low temperatures were being conducted. These and the work of the station were explained by Sir William Hardy at a meeting in the University Arms Hotel, at which our undergraduates entertained us to a musical programme.

The itinerary for the following day provided for a visit to one of the most remarkable concerns in the world, the Chivers and Sons of Epsom. Fifty years ago Chivers were orchardists, selling fresh fruits on the London and Essex roads, but a glut which forced them to sell to the jam manufacturers, changed their whole policy. They determined that they would themselves make jams. They enlarged their orchards, insect pests led them to keep poultry, pigs, sheep and bees. Today Chivers farm 8,000 acres of land and raise annually 12,000 chickens, 6,000 ducks, and 2,000 pigs. Histon cattle have won four championships, one reserve, seven firsts and four second prizes at the last Royal Show in England, and five championships were included among the awards won by Chivers at the 1925 and 1926 Royal Shows. They have been no less successful with their Yorkshire and Middle White in winning championship awards. They also keep Suffolk sheep and Percherons.

It was our privilege to spend half a day inspecting as much of the farms and orchards as could be covered in that time. Among the animals we saw was Histon Wild Queen, champion of the Royal Show, whose average milk yield with her first five calves was 11,864 lbs. The Histon Dairy Short-horn herd is a genuinely dual purpose herd. Many of the cows exceed 1,000 gallons annually. There is also a Lincoln Red Short-horn herd of 150 females. The Yorkshire and Middle Whites are the most outstanding to be found anywhere and it was an inspiration to see the remarkable size, smoothness and finish of these animals.

But famous as the concern is as a farming organization, it is the combination of farming, manufacturing and marketing which makes this firm unique. From Chivers' factory a whole trainload of goods leaves every

day. The factory is the last word in efficiency. The pans in which the fruit is boiled are lined with silver. Jam jars are filled by machines at the rate of 150 to 200 jars per machine per minute. Miniature trains carry the products from department to department. Everything is kept moving. Not a moment is lost, yet there is no hurry, while the workers were evidently contented and happy, thanks to the personal interest that is taken in their welfare and the institution of co-partnership and profit-sharing. What a contrast from the little farm, still standing, in which the firstlings were made.

Before leaving we were entertained to tea in the company's dining hall, when Mr. J. R. Chivers and Mr. W. B. Chivers told us something of the history of their famous firm and presented every one of us with two tiny jars of jam, exactly like those which were specially made for the Queen's House, exhibited at the great Wembley Exhibition, in 1924. These little jars of jam are the smallest in the world.

No finer lesson in the marketing of farm products, and for that matter in the growing of them, could have been given to a party of farmers or more pleasure afforded us in the learning of it.

(To Be Continued.)

SUNDAY SCHOOL LESSON

AUGUST 12

THE COUNCIL AT JERUSALEM

Golden Text.—If therefore the Son shall make you free, ye shall be free indeed.—John 8:36.

Lesson: Acts 15:1-35; Galatians 5:1-15.

Devotional Reading: Psalms 133.

Explanations and Comments

Trouble-Makers From Jerusalem, verse 1. Jewish synagogues were composed of Jews and proselytes, the latter being Gentiles who had received the Jewish faith.

Other Gentiles who attended the synagogue services were called "God-fearers," and were not in "full fellowship" with the rest of the church. We have seen how Paul and Barnabas preached to the Gentiles and founded churches among them at Paphos, Antioch, Lystra, Iconium and Derbe on his first missionary journey, and how he reported to the church at Antioch of Syria the church which had sent them on their mission, that "God had opened a door of faith unto the Gentiles."

The church at Antioch, itself composed largely of Gentiles, rejoiced over the good news, but did not realize the far-reaching effect of this new departure. When the report reached the church at Jerusalem, however, it was not so welcome. In fact, it aroused violent opposition. "Certain men," says Paul, "came down from Jerusalem, and began to teach that we should be circumcised." "The church," says Paul, "was divided."

For their stand there is much to be said in their favor. It has been observed since the days of Abraham, and no law abrogating it had been voiced. What right had they to declare it unnecessary? What right had they to adopt this revolutionary procedure and to say, "Circumcision is nothing and uncircumcision is nothing?"

Paul had the revelation of a revelation from God, a revelation shown, not by vision nor by word of prophet, but by results which proved God's will and purpose. God had borne the Gentiles witness, giving them the Holy Spirit even as He did unto the Jews; and he had made no distinction between Jews and Gentiles, cleansing their hearts by faith. God's will is shown in His ways with men as well as through His words to men.

"The Jews of the first century eschew the Gentiles, but we of the twentieth century eschew the Jews. They were wrong, and so are we,"—George W. McDaniel.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back in the time to test the virtues of the new Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Wanted the Usual Bonus

"MacGregor," said the butcher to the thrifty one, who was planning to make an exit from the neighborhood, "I have every reason to believe that you will never pay me the amount due. It would be very foolish of me to sue you and you have nothing of value that I care to attach. I'll just give you a receipt and call it paid in full."

"That's awfully nice of you," said Mac.

A few moments later the merchant noticed that Mac was still resting his pedantic extremities in the store. "Was there something you wished to speak to me about?" asked the merchant.

"Well, not exactly. But isn't it customary to give a fellow a cigar when his account's been settled?"

Are You Ready?

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner does than Baby is soothed, relieved. It's just a matter of moments. Yet you have eased your child without use of a single doubtful drug. Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot put away. And it's always ready for the crumpled pangs of colic, or constipation, or diarrhoea; effective, too, for older children. Twenty-five million bottles were bought last year.

Sees Good Market In Canada

Great Britain Waking Up To the Importance Of Canada As Trade Centre

In the past two years the British manufacturer has been waking up to the importance of Canada as a trade centre, and for this reason the Overseas Trade Department is reorganizing and improving its system in this country in an effort to bring the necessary facts before the manufacturers of the Old Country," said W. J. Glenn, Inspector General for the organization in question, upon his arrival in Montreal. "We are not here to wave the flag, and ask Canadians to buy British goods merely because they are under the Union Jack, but we want to create an organization here that will enable the manufacturer in England to become acquainted with the problems and requirements of Canadian importers," he stated.

Raise English Pheasants

Experiment Is Being Made To Introduce Game Bird In Saskatchewan

An attempt is being made in the Alaska and Lovena districts in Saskatchewan, to raise English pheasants of the ring-necked variety. It is not many years since Hungarian partridge was introduced into Western Canada. The experiment will take some years, it is said, and if successful will furnish an added attraction for bird hunters.

SUMMER COMPLAINT

Nearly Lost Her Little Girl

Mrs. Theodore Bivert, Anthony, Ont., writes: "Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak, had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

DE FOWLER'S STRAWBERRY

and after she had taken a few doses she was all right again. I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Millburn Co., Limited, Toronto, Ont.

BRITISH MINERS COMING TO ASSIST WITH HARVEST

London.—Arrangements have been finally concluded for 10,000 men to go from Britain to Canada to assist in this year's harvest, stated Rt. Hon. L. C. M. S. Amery, Secretary for the Dominions, in the House of Commons.

The Dominion Government especially wished that the men be recruited from the mining areas and the British Government would carry out these wishes, the minister said. He concluded amid cheers.

"The British Government is greatly indebted to the Canadian government for the readiness with which they co-operated in this arrangement."

Ottawa.—The Canadian Government is not assuming any financial responsibility for the movement of the British harvesters either coming or going, it was stated at the immigration department recently. The department, however, has expressed its willingness to co-operate in every possible way in placing men who wish to stay in Canada after the harvest is over.

Under the arrangement reached, men who wish to return will have the benefit of the reduced rate they paid westward. But it is assumed that most of them will wish to remain in Canada, and the problem will then arise of their absorption without increasing winter unemployment in the cities.

Mine Workmen Killed In Ontario Accident

Crushed By Falling Steel Gate On Welland Canal

St. Catharines, Ont.—The crash of the steel gate of lock number six of the new Welland Canal, at Thorold, Ont., caused the deaths of at least nine workmen and injuries, some of which have proved serious, to about 20 others. About 40 workmen were in the vicinity of the lock when the disaster occurred, and none is believed to have escaped death or injury.

The accident was caused by the boom of one of the cranes slipping when an effort was being made to raise a huge 500-ton steel gate into place on the West side of the lock. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held but the boom of the crane at the lower end slipped.

The huge gate crashed into the steel gate fabric at the east of the lock and smashing the steel work fell to the bottom of the lock, crushing the workmen as it fell.

Must Keep Airtight Rescue Films

Moscow.—The Russian relief committee approved recently the refusal of aviator Chukhovskiy, of the Russian ice-breaker Krasnaya, to hand over to General Umberto Noble films he took when he sighted two men of the dirigible Italia on the ice off North-east Land. In refusing to give Noble the originals of the film, the relief committee said Chukhovskiy was right, for he had been ordered strictly as had been other Russian rescuers, to retain all material and data gathered.

Death Of Mrs. W. S. Fielding

Ottawa.—Mrs. Hester Fielding, wife of Right Hon. W. S. Fielding, former Canadian minister of finance, one of the capital's most distinguished women in social and philanthropic circles, died at the family residence here. She had been failing in health for nearly four years and had been almost entirely confined to her home throughout that period. Mrs. Fielding was soon to have celebrated her 80th birthday.

On Way To Far East

Montreal.—His Royal Highness, Prince George, the King's youngest son, will arrive in Quebec City on August 18, aboard the Empress of Australia. Prince George is on his way to the far east where he is going to join the China flag ship. From Quebec he will journey by train to Vancouver.

W. N. U. 1745

Crowds Welcome Nobile Party

Meet Train At Every Stop In Italian Territory

Rome—"Viva Nobile" was the slogan of Italy as countrymen of the Polar explorer welcomed him and his other survivors of the dirigible Italia to their homeland.

Enormous crowds met the train at each stop in Italian territory, showering the returning explorers with flowers and gifts of wine, and shaking rafters of railway stations with their roars of encouragement.

The demonstrations constituted a veritable march of triumph from the northern frontier.

Premier Mussolini sent the prefect of Bolzano to welcome Nobile and his men at the Brenner pass in the name of Fascist Italy. There also were striking demonstrations at Trento, Verona, Bologna and Florence.

Lieut. Alfredo Viglieri, navigator of the dirigible Italia, who was in command of the red tent encampment on the ice after Nobile himself was rescued, was the centre of demonstration all his own. He left the train soon after passing the frontier and went to his home in the little town of Borghetto Santo Spirito. His room, however, he had to stop at Milan, where the prefect and an enormous crowd welcomed him.

The crowd shouted "Viva Viglieri!" and "Viva Nobile!" and added: "Down with the jackals of the anti-Italian press!"

Grant For Class "B" Fairs

Will Receive Same Assistance From Government As Given Last Year

Ottawa.—It has been decided by the government that class "B" fairs will receive the same grant in 1928 as they did in 1927. This was stated by Dr. J. H. Grisdale, deputy minister of agriculture, when asked respecting a report that the government was contemplating giving these fairs some measure of assistance.

During the last session of Parliament no appropriation was made for the class "B" fairs as had hitherto been done, the entire government grant in this connection going to the class "A" expositions. Considerable opposition to this has developed among the farmer element of the House of Commons and the agricultural estimates were subjected to severe criticism on this account both by friends and opponents of the government.

The deputy minister's announcement restores the former status of the class "B" fairs for the current year.

Scores Double Victory

Vancouver Boy Wins Twice In Olympic Sprinting Event

Amsterdam.—Percy Williams, of Vancouver, sent the Canadian flag to the top of the Olympic pole for the second time in three days, in token of a world's victory in the Olympic games. The youthful sprinting marvel won the 200 metres final against some of the finest and most experienced sprinters in the world, including Jackson Scholz, of the U.S., the title holder. Williams is the Olympic champion at 100 and 200 metres, the first double sprint winner in the Olympiad of 1928.

Fire-Eater Burned

London, Ont.—Essaying to entertain a few companions by lighting with a match a mouthful of gasoline, Alex Johnstone, young Irish farm-hand, was badly burned about the head, chest and arms when the liquid ignited so suddenly. He was blowing the gasoline toward the match flame when the liquid ignited.

Law Suits Total Millions

Budapest, Hungary.—Law suits totalling \$200,000,000 have been instituted in the international tribunal at The Hague against the Jugo-Slavian Government by the former Archduke Frederick of Austria and 25 others. The suits are based upon confiscation of property. Frederick claims a loss of \$17,000,000.

Kellogg Going To Paris

Paris.—Secretary of State, Frank B. Kellogg, has sent word to Mr. Briand, Foreign Minister, that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France, on August 18.

HEADS RETAIL MERCHANTS ASSOCIATION

J. T. Crowder, Toronto, was re-elected president of the Retail Merchants' Association of Canada at Regina. He was elected over J. E. Sansregret, Montreal, who was vice-president last year.

Ottawa Crowds Greet Lieut. Desmond Burke

Rousing Welcome Given To Member Of Blesley Team

Ottawa.—With the plaudits of his fellow citizens ringing in his ears, Lieut. Desmond Burke, of the Governor-General's Foot Guards, who was the Blesley meet in 1924, won the King's Medal, and this year came within one point of duplicating the feat, came home.

He was accorded a spontaneous welcome by large crowds which thronged the central station, blocked his entrance and stretched several blocks along nearby streets. Among those on the platform to welcome him in addition to his parents and relatives, were Premier Mackenzie King, Mayor Arthur Ellis, and members of the board of control and the city council.

Plans Visit To Canada

Blesley Winner May Take Part In Dominion Rifle Meet

Montreal.—Arthur C. Hale, winner of the King's Prize at Blesley this year, is coming to Canada according to the eight members of Canada's 1928 Blesley rifle team, who arrived here from England. Hale, a 25-year-old gunsmith, of Birmingham, intends it is said, to take part in the Dominion Rifle meet at Ottawa. He has been shooting eight years. His father and brother are crack shots. It is understood that six members of the Australian team also will come to Canada for the same meet.

gentleman with a rather bad temper at times. They were obtained by the General Tourist Department of the Canadian Pacific Railway from Fred Arnott, who captured them in the Lake Tomalakaming district. The two bear cubs are being sent over to Italy, where they will be met by de Pinedo in his plane, and down to their new home.

Initial Pool Payment

Statement Made That Payment On Current Year's Crop Will Be Same As Last

Saskatoon.—The initial payment by the Wheat Pool on the current year's crop will be the same as last year, according to B. Catton, of the Central Selling Agency, representatives of district nine of the Saskatchewan Pool. This means that the first payment on No. 1 Northern wheat delivered at Fort William will be one dollar per bushel; 97 cents for No. 2; and 92 for No. 3.

Despite the fall that wheat has taken in price during the past few weeks, the pool is not worrying. Mr. Catton stated, and it has every hope of marketing the crop to advantage. Discussing the cut-off date that is in demand by so many farmers, he said that he was not in favor of it except in the exceptional circumstances of wheat falling to such a low level, that the non-pool farmer, sensing the opportunity to better himself by joining the pool, attempted to come in at the last moment.

Fewer Leaving Canada For United States

Figures For Year Just Closed Show 11,448 Less

Montreal.—Emigration from Canada into the United States along the eastern section of the boundary decreased in substantial manner during the fiscal year ending June 30, 1928. Figures for the year are announced by H. R. Landis, United States Commissioner of Immigration at Montreal, head of District No. 1, which extends from Halifax to Kingston. In this district, which roughly covers the eastern boundary, emigrants admitted to the United States from Canada for permanent residence totalled 34,383 during 12 months ending June 30, 1928. For the previous year the total was 45,831 emigrants, or 11,448 more than in the year just closed.

Civil Service Council

Hon. Peter Heenan Wants Representatives To Meet the Government

Ottawa, Ont.—Hon. Peter Heenan, minister of labor, stated that he is issuing invitations to civil service organizations to select representatives to meet with the government in order to draft a constitution for a national civil service council. This action is in line with the report of the select standing committee on industrial and international relations, which devoted some considerable time during the recent parliamentary session to this matter. The minister has left the capital for Winnipeg.

C. P. R. REVISED BRANCH LINE HAS BEEN SANCTIONED

Ottawa.—The Board of Railway Commissioners has handed down a judgment approving the route map showing the revised general location of the Canadian Pacific Railway's Swift Current-Northwest Branch, which projects northwesterly in a direction which, it is intended, will ultimately have as its terminus, Willingham, Alta.

In delivering the judgment, Hon. H. A. McKeown, chief commissioner, details the history of the construction of the company's branch lines, and notes the objection of the counsel of the Canadian National Railways that this would be really an extension of the Cdn. Pacific's Whitford Lake branch, from which, the National lines contend, the Canadian Pacific has not obtained parliamentary authority. Counsel for the Canadian National advanced that the terminus of the Cdn. Pacific's Whitford Lake line was at Willingham and that the road to Strathcona could not be built as an extension of this branch.

It was further argued that the Swift Current-Northwesterly branch was originally projected from Swift Current to Edmonton via Empress, Cereal, Coronation, Oxbow and Camrose. Of this only the portions between Swift Current and Empress, and Coronation and Lorraine had been built.

A revision of the Canadian Pacific Railway Company's plan was accepted in 1919, and the Canadian National contends that the rival company is taking advantage of this nine-year-old revision to extend the Swift Current-Whitford Lake line from Willingham to Edmonton. Exception is taken on the ground that this is an extension of a branch line already constructed.

The chief commissioner reviewed the matter of branch line construction and recommended the diversions asked for.

All-Canadian Phone Service

Gap Between Sudbury and Fort William Has Been Bridged

Toronto.—An all Canadian telephone line linking Ontario and Quebec with the Twin Cities at the head of the lake and Manitoba was officially opened and the necessity of switching calls through the U.S. will thereafter be eliminated.

The Canadian Pacific Railway, Bell Telephone Co., Manitoba Government Telephone system and the municipal systems of Fort William and Port Arthur co-operated in the all Red route.

The gap to be bridged was the sparsely populated section between Sudbury and Fort William, and the connection between existing long distance telephone systems was made via the C.P.R. right-of-way.

Message From Lost Aviators

Note Found In Bottle Signed By Names Of Elsie Mackay and Capt. Hinchcliffe

London, Eng.—A bottle washed up on the shore near Flint, North Wales, Tuesday, contained a note on which was written, "Goodbye all." Beneath the brief message was signed the names Elsie Mackay and Captain Hinchcliffe, and beneath the names the words "Down in fog and storm."

Held For Oregon's Death

Mexico City.—Sister Concepcion Acebedo de la Lata, 32, in uniform, charged with having induced Jose Toral to assassinate General Alvaro Obregon. She is quoted by newspapers as saying: "I hope to be executed. I want to be punished." She did not admit influencing Toral to kill Obregon, but added: "God must have wanted, otherwise He would not have permitted the crime."

No Car Shortage For Crops

Winnipeg.—There is no shortage of cars for hauling of this year's grain crop, the railway association of Canada has announced, but there was every possibility that the harvest will be the heaviest in years and all of the 80,000 cars now in Western Canada, probably will be needed.

DR. R. M. OATWAY

SPRUCE GROVE

**As a progressive Dairyman desiring to secure maximum profits from
my milk herd, I realize the necessity of adhering to an organized
schedule of care, feeding and handling.**

ANYONE who has been successful in raising a milk herd will tell you that the key to success is a systematic and organized schedule of care, feeding and handling.

My first step should be the selection of a true type herd stock—a selection which should always command good care and good judgment.

Proper selection of dams also will bring its own reward in more milk and better animals.

The comfort of the animal is important. Thorough cleaning aided by periodic clipping about flanks, udders and underlines during stable months and all over the body when turning out in the spring will be part of my program. Clean animal, clean milk with low bacteria count.

The growth in the number of our leading associations convinces me that membership in one is a good thing. I pledge my association full support and co-operation.

Proper feeding is essential. Therefore I shall always provide a carefully balanced ration to my herd, as well as a plentiful supply of pure, clean water.

Any cow in my herd suspected of being a feeder or otherwise lacking in necessary qualifications shall be culled. I shall keep a full, but thorough test. What I spend on my herd must come back to me as a profit.

During the hot months, whenever possible, I shall supply my herd with a cool, clean, outside resting place, where they may show their heads in peace and ruminate on the blessing of being a pointer rather than a parasite.

A good condition of the feet is essential for the cow to move freely and keep healthy. I shall clip and condition them thoroughly by means of a damp cloth.

The dairy of tomorrow that will produce more milk, more quality and more profit is the dairy of today that is being built by the system which I shall follow.

Then what my milk is bottled I shall know I am repaid for my efforts. I shall get more milk for my milk and the gospel of clean and better milk shall spread throughout the land.

Here and There (108)

Lumber companies report the greatest volume of business in Alberta since the boom year of 1927. One hundred million feet of lumber is being cut in Alberta this year but the bulk of the supplies come from British Columbia mills.

A press report from Telfordville states that the farmers are well pleased with the allocation of stations on the twenty mile extension to the Headley subdivision of the Canadian Pacific Railway. A large number of settlers are going into the territory which will be served by this extension and the old timers in the district are now clearing and breaking as much land as possible.

Kyohel Kato, who represents a Tokio company, and who has just concluded a business mission to Canada, stated that he had bought 8,000,000 bushels of wheat in Canada, or about half of Japan's total importations. He explained that Japan got more for its rice than Canadian wheat cost in their market, hence the present purchase. He said, too, that Japanese were eating more wheat foods and adapting themselves to the stronger diet.

"The Maritime Provinces in particular, and Canada in general, need more commercial advertising," was the opinion expressed by Hon. J. B. M. Baxter, Prime Minister of New Brunswick, when interviewed on arrival on board the "Empress of Scotland" after a month's visit to Europe. British settlers in the Maritimes have been quite satisfactory as regards type and quality, he said, and he hoped that we will be able to obtain a great many more spread over a period of years.

Part of a litter of eight red foxes, which, together with the vixen, were captured in the Arcola district recently, have been brought to Moose Jaw by Mr. W. White, who has established a fox farm east of this city. It is many years since red fox have lived at large in their natural state in the southern part of this province, where these were captured. Mr. White intends to start raising patch foxes, a cross between red and silver or black fox, as a commercial enterprise.

Wool growing in Western Canada is increasing rapidly, according to W. W. Thomson, manager of the western branch of the Canadian Co-operative Wool Growers' Limited. Up to June 30th, he pointed out, four carloads of wool had left Regina for Western Ontario (for grading by Government authorities) as compared with one for the similar half year of 1927. This year's shipments represent 108,000 lbs. from 300 flocks in the province.

The mystic number "13" holds no terrors to the Royal Order of Jesters, an organization within the Imahala Temple Shrine of Buffalo, who sailed on Friday the Thirteenth of July, with thirteen members in their party, from Montreal for Liverpool. The society meets on the thirteenth of each month at 6:15 in the afternoon, and is divided into courts of 13 members each. The party of Jesters sailed on the crack new Canadian Pacific liner "Duchess of Bedford" in a group of Shriners visiting the old world.

NURSES know, and doctors have declared there's nothing quite like Aspirin to relieve all sorts of aches and pains, but be sure it is Aspirin the name Bayer should be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box.

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is possible that other Aspirin names have been used, the public against imitations. The Tablets will be the same with their "Bayer" trade mark.

CHAPTER XXIX.—Continued.

When Helmi returned to the city she went to the hospital for news of Lili, and she went without fear. She had the assurance of Lili's safety, and as she sat in the small, dark waiting room it did not occur to her that she was a lonely girl in a big city, with a sick baby and no money. Helmi was already planning her summer and counting the days until little Lili could go with her.

The nurse who had so kindly received the baby came to speak to her. "Oh, I remember you," she said smiling, "you are looking much happier. I told you she would do well, and she has. She was very ill the second night, but a change came about day-break. The fever left her then and she went to sleep and has been doing well ever since. If you will go out and stand on the north side of the hospital I will show her to you through the window."

Helmi's face beamed with the prospect. "What will I have to pay?" she asked the nurse.

"Nothing, dear, not a cent." The City provides this hospital, everyone pays for it, so do not worry about that."

"It is like a dream," said Helmi, "everyone is so good."

When the nurse came with little Lili in her arms and Helmi saw the beloved little head of brown hair and the little face like an exquisite flower, her heart was full of love and gratitude, and when the nurse lifted the tiny hand and waved it toward

MOTHER OF TWINS HELPED

Restored to Health by Taking
Lydia E. Pinkham's Vegetable Compound

Mitchell, Ont.—"I had little twin babies and for quite a while after I was so weak I could not get up because of pains all the way up my back at the back. I also had headaches and got very little sleep. I took Lydia E. Pinkham's Vegetable Compound, and soon my work was able to get up and do my work. I have taken three bottles and I am fine, do my work without trouble and am gaining in weight and strength. I will gladly recommend the Vegetable Compound to anyone." Mrs. F. STATION, Box 250, Mitchell, Ont.

W. N. U. 1745

her, Helmi could not see any more for the rush of happy tears. She came back into the office again to ask for Roland.

"I almost forgot the other baby," she said, "is he doing well?"

"You are more concerned than his mother," said the nurse, "though his grandmother has been here several times. He will get better we think. He is a strong baby, but a baby needs to be loved. Care is not enough—there is something more."

"I know," said Helmi.

To the North Star Rooming House Helmi went to explain her absence to her good friends, the Corbets. Mrs. Corbett was alone, and over a cup of tea Helmi told her story. It was easy to tell Mrs. Corbett; she knew about God and how good He can be.

"Thank God, you're alive, Helmi! You gave me an awful scare earlier out that way with the wild foreign look in your eyes. I did not know what you were up to, but I could only pray God to take care of you, for vain was the help of man and me, I know! I thought where to look for you. My God child, what have you done to your boots?"

Helmi told her about her flight through the woods, the coming of the dog, and everything.

"Look at that now! Ain't God wonderful? That's what Christ said over and over again, only the people couldn't sense it. Well, I'm glad you've found peace, Helmi; it's the greatest gift God has sent to us. And you got the money, too? Well, get a new pair of boots, child, good strong ones. If a person has good boots and a good bed they're all right, for you are in one or the other of them all the time. And will you go to the Englishman's house, Helmi? But how can you live there alone, eight miles from the mines? If you were near enough you could run a boardin' house."

"I am going," said Helmi, "as soon as Lili's well enough. I am not a bit afraid now, and Mrs. Corbett, in the holidays won't let Rosie and Danny come? We'll get a cow some where, and there will be wild berries; and I know there will be lots of flour and oatmeal in the house, and it will be just like a picnic all summer. You will let them come, won't you, Mrs. Corbett?"

"It will be a lot easier to let them go than to try to stop them when they hear of it—they're fair witted over you and the baby. Well, well, Helmi dear, ain't it wonderful how things come out?"

When John Corbett was told the whole story that night, he sat for a long time smoking a meditative pipe. His gentle put-put making of the only sound in the room. Helmi was going to stay with them until Lili could be taken from the hospital. As it was being occupied, Helmi was to share Rosie's narrow bed, the lack of space of which would be ample overcome by the warmth of Rosie's affection.

Helmi sat on a couch which later would be turned into a bed for Danny, and enjoyed the luxury of having such a welcome as the Corbets gave her.

"I am thinking," said John Corbett, after a long pause, "that maybe the Englishman is the best man of the two."

"Oh, no, no, Mr. Corbett!" Helmi cried, distressed. "Mr. English is my good friend—I like him—he is so good—but I love my Jack. He is my man—there is a big kicka—what you call difference—isn't there, Mrs. Corbett? You tell him!"

"Tell him!" said Maggie Corbett scornfully. "He knows, the sly old dog! He knows, I have often told him. I'd rather be fightin' with him than agreein' with any other man. That's love—and he knows it!"

CHAPTER XXX.

Vehemoor, German prisoner camp known also as Cellelager. Six, was built on a peat bog from which the peat had been removed, leaving a sour, raw mud, on which not even a plant or log was laid. When the prisoners stepped out of the door they went to their knees in the indescribable muck. The condition of the camp inside may be imagined. A crowded room of miserable men; two smoking stoves burning the smouldering peat; double rows of berths where greasy blankets on planks furnished the beds; despair written on young faces—despair and bitter hatred.

Here sat Jack Doran, on this wet night in January, 1917, listening to

the sleet slithering down the small windows. He had been in three prison camps before this, having attempted to escape from Geissen and from Cellelager One, been caught and strafed, the last time in the dark cells at Oldenburg. He was dressed in the garments supplied by the Red Cross for prisoners, and carried himself with something of his former erectness. A white V was showing in his brown hair, and there were hard lines around his mouth. Two years of war had told on him. Still there was something about him that suggested hope. Many of the prisoners had the beaten look of men whose spirits are broken, the condition of soul desired by the German guards for the men under their care.

Jack Doran, thin, pale, determined, sat planning another escape. He had often wondered at himself for his tenacity. Life had not been so sweet that he should so earnestly desire it. In the days of his freedom he had not found happiness, but the fires of youth still burning in his heart urged him on. He had been captured in the night attack on Gavrelle, May 3rd, 1916, when part of his platoon lost their way in the darkness and found that they had an enemy behind them as well as ahead of them, and suffered under heavy artillery fire. Jack ran back to save his captain, who had fallen wounded, and they were both captured and separated, his captain going to another camp. Jack had made two other attempts in company with a Canadian, who was captured the same day, but when punished the last time in Oldenburg, his friend was sent to some other camp, for the German O.C. believed that separation would make it easier to hold these two adventurous ones.

Soon after coming to Vehemoor, Jack had been fortunate in finding a compass under a pile of peat in the bog where the prisoners were sent to work, probably left by a prisoner who was fearful of having it found on him, and had abandoned it along with his hope of escape. The possession of a compass, being proof of the desire to escape, was in German prison camps an indelible mark on the board in the wall beside his bunk and there he now kept it.

There were two other men in the camp who had attempted escapes, and between them and Jack a certain free-masonry existed. They met as often as they could to discuss their plans, and on the coldest days volunteered for work on the bog in order that they might have a few hurried words together. They knew that if they showed any unusual friendship they would be suspected of saying plans.

(To Be Continued.)

Taking His Revenge
Conductor—"To St. Paul, eh? Why don't you stay on and go to Glacier Park?"

Passenger—"Because I want to go to St. Paul."

Conductor—"Can I sell you a seat in the chair car?"

Passenger—"No, not today."

Conductor—"A nice dinner on the diner at one-fifty?"

Passenger—"Are you kidding me?"

Conductor—"Not at all; you're my barber, aren't you?"

Not Too Early
"What time shall I report for work in the mornings?" asked the college youth upon receiving his first job.

"Oh, any time you like," replied the office manager, so long as you're here before eight."

Teacher: "What people are scattered all over the earth?"

Class (in chorus): "Pedestrians."

Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Saskatchewan Dental Society

MISSING TEETH

Your son is now grown up, and should have his full complement of teeth, which is thirty-two.

But the probabilities are that one or more are missing. An abscessed condition of a temporary tooth might destroy the germ of the permanent successor.

The teeth more prone to non-eruption are in the order named, the third molar, upper cuspid, upper lateral, and lower second bicuspids.

1. The premature extraction of a temporary tooth might destroy the germ of the permanent successor. 2. The premature extraction of a deciduous tooth might destroy the germ beneath it entirely. 3. Childhood diseases accompanied by high fever such as scarlet fever and measles might, through their general disturbances, injure irreparably the tooth germ.

4. The retention of an unduly long of a temporary tooth, might prevent the eruption of its successor.

5. In the case of the upper cuspid, sometimes it is fully formed, but having taken up a position, more or less towards the back of the incisor teeth, it fails to erupt.

6. With the third molar, we find that it is due to lack of room in erupt that it remains impacted in the jaw, quite as frequently it does not form at all.

So you observe that a tooth may be missing due to one of several causes—for the most, they are preventable, nature intending that each one should have its full complement of teeth.

May Serve Good Purpose

Latest Tragedy in Arctic Should Discourage Further Exploration By Plane

Although not many men have visited the Arctic and Antarctica, these desolate areas of ice and water have taken a high percentage of brave lives, and some of the greatest epic of human endeavor, achieved at the cost of much suffering, and sometimes death, come from these dreadful hinterlands of civilization.

The experiences of the Noble expedition have filled the world with distress at the knowledge of men drifting for weeks on ice floes, suffering unknown hardships from cold and hunger and physical pain. What happened to some of them may never be known, for how long they endured and how they ultimately died after waiting hopelessly for succor.

It is just as well, perhaps, that the Arctic keeps its secrets, but the whole adventure will have served some purpose if it causes a revision of public feeling against expeditions of this kind. The fate of the Noble party shows that under conditions such as are likely to be met with in these regions, the airship is no more reliable than the balloon was in the days of the Arctic expedition, which left for the North Pole nearly thirty years ago and was never heard of again.

Minard's Liniment—A reliable first aid.

Typist Abandones Swin
Miss Mercedes Glets, London typist, who last year conquered the Straits of Gibraltar, abandoned an attempt to swim the Irish Channel between Donaghadee, Ireland, and Portpatrick. The treacherous currents of the channel forced her to quit.

Let Minard's Liniment Relieve Pain.

Some men never have any respect for gray hairs until they acquire some of their own.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would advise.

The best help will be Phillips' Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

Designed for Dependability

Firestone engineers found that the life of a tire depends as much upon the flexing life of the cords of the carcass, as upon the toughness of the tread.

To provide extra strength, stamina, and long wear, Firestone dips the cords of the carcass in a rubber solution. This saturates and insulates every strand of every cord, minimizing internal friction and gives thousands of extra miles. The Firestone Dealer in your locality will gladly serve you, and save you money.

BUILDS THE ONLY GUM-DIPPED TIRES

Little Helps For This Week

"God is not the author of confusion, but of peace."—1 Cor. xiv. 33.

Light strains of music; soft and low. That break upon a troubled sleep; I hear the promise, old and new.

"God will His faithful children keep. In Perfect peace."

It stills the questionings and doubts, The nameless fears that thrall the soul; It speaks of love unchanging, sure; And evermore its echoes roll.

In perfect peace."

True peace is found only in the possession of God; and the possession of God here on earth consists only in submission to faith and obedience to law. Resist every forbidden joy; restrain every wish that is not referred to this will; banish all eager desires, all anxiety; desire only the will of God; seek Him alone, and you will find peace; you shall enjoy it in spite of the world.—Fenelon.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Prince Albert penitentiary is the only Canadian prison at which cordwood is produced. The last report on prisons credits the Saskatchewan institution with producing 236 cords.

Let Minard's Liniment Relieve Pain.

Some men never have any respect for gray hairs until they acquire some of their own.

Indigestion

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Learn now—why this method is superior.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Enjoy **ESSEX** Super performance

and save enough to pay for a vacation

It is impressive to know that point for point the Essex Super-Six equals or excels any car up to \$300 or \$400 greater cost. But cold figures can't express the drama of this Ohio business man, who writes:

"My Essex gives me every fine car quality and performance ability which our former costlier car gave, and we saved enough to pay for the whole family's touring vacation."

Road Tax for Vehicles.

At the U. F. A. provincial Victoria conference, held in Lamont last week, Hon O L McPherson devoted most of his address to the matter of roads, present and future, suggesting that as vehicular traffic was increasing so rapidly, placing the investment in cars for the province for next year to be around 120 million, and that as the cost of the upkeep of a gravelled surface on main highway ran from \$50 to \$500, that a road tax might be the best solution of meeting the cost of maintaining the roads.

A Low-down Trick.

Edmonton Journal—Chas. D Knoll of Leduc planned a party for his friends, and in order to insure the success of the function he made a special trip to Edmonton on Saturday and purchased an eight gallon keg of beer. He parked his car at the corner of 104th street and 82d ave. while he pined at a nearby cafe. When Mr Knoll returned the beer was gone. The City police were notified and began a search for the missing keg. However, it had not been recovered by Monday morning, and it appears Mr Knoll's party will have to be un-nulled.

THE STONY PLAIN SUN

Stony Plain and District.

Hog-raisers are now coming in their own, around 11½c. being paid by local buyers on Thursday last.

Although the threatening weather on Sunday may have kept a few away, the Mission Festival at St. Matthew's Church (Missouri Synod) was very successful. A good program was carried through.

Berry-pickers are making the best of the fine days, and many a quart is going down in the cellar for winter consumption.

The heavy rain storms which commenced Saturday evening was welcomed by some farmers, as it doubtly assured the filling of the wheat heads and provided ample moisture to carry along until the cutting time. In some cases, however, the rain put down wheat which had attained a heavy growth.

Meredith Bros. want cattle. Phone 24.

Sporting Notes.

The ballgame at Edmonton Beach on Monday afternoon proved to be a splendid exposition of the game, in spite of the apparent one sided score, the Walther Leaguers keeping the Ramsey players busy to get what they did. Final score: Ramsey's 6, Walther League 1; W. L. battery—Ph Enders and C Lory.

A five-innings no run game was played on the Grove diamond last when the Grove team and Walther Leaguers clashed. Each team was in the pink of condition, consequently the fielding was exceptionally good. The game was called on account of darkness. Batteries: Grove—Miller & H Rogers; W L. Ph. Enders and C Lory. Mr Joe D Miller umpired in a very satisfactory manner.

Several ball games billed for Sunday afternoon were postponed on account of the bad weather.

Funeral of Mrs. Goebel.

The funeral took place on Friday last of Mrs Elizabeth Goebel. A service was held at St Matthew Lutheran Church (Manitoba Synod) by Rev G Postach, the pastor. Interment took place in the cemetery adjoining the church grounds. Deceased had been residing until recently with her son Mr Peter Goebel. She was in her 92d year, and had been a resident of the district for over 35 years.

Duffield Doings

The S S Board held a sale on August 15, at the McLeod farm at Keep Hills.

The farmers around here are getting ready to cut their wheat.
